

**LIST OF AWARDED
CONTRACTS ABOVE
USD 15,000
(Jan 2025 – Dec 2025)**

07 April 2026

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
1	Sahel ECO Evergreen	Mali	2025	The objective of the agreement is for the Partner to undertake activities described hereunder: 1. Enhanced uptake and effectiveness of sustainable land management, land restoration and integrated landscape management practices within the broader Great Green Wall area. 2. Improved land health and vegetation monitoring and intervention targeting within the broader Great Green Wall area. 3. Enhanced policy and institutional enabling environment for sustainable management and livelihoods within the broader Great Green Wall area.	EUR	18,992
2	International Fertilizer Development Centre (IFDC)	Ghana	2025	The objective of the agreement is for the Partner to undertake activities described in Annex 1 – Work Plan as part implementation of the project titled Regional Soil Fertility Mapping Project in Niger	USD	50,000
3	The Pastoral and Environmental Network in the Horn of Africa(PENHA)	United Kingdom	2025	PEHNA will be responsible for engaging senior officials at the Ethiopian Forestry Development to unpack key articles in the relevant forestry laws and regulation, in order assess their implications and to better articulate the roles and responsibilities of the Ethiopian Forestry Development. They will prepare a document to serve as basis for developing research and development strategy of EFD and to propose development a new structure to the institution.	USD	60,000
4	WildMon	USA	2025	Wildmon will support the three site teams (Guyana, DRC and Cameroon) to develop data collection plans and methods, conduct camera trap, ENDA and soundscape data collection according to best practice, and upload resulting data to the relevant data portals, in preparation for analyses. Wildmon will also procure and ship key equipment for each site, including eDNA sample kits and equipment and peripheral equipment such as data hard drives.	USD	60,258
5	The University of Natural Resources and Life Sciences, Vienna (BOKU)	Austria	2025	The objective of the agreement is for the Partner to undertake activities described in Annex 1 – Work Plan as part implementation of the project titled Pathways to Resilience among Communities in Somalia (PRACS)	EUR	108,735
6	Université de Kisangani	Democratic Republic of Congo	2025	The objective of the agreement is for the Partner to undertake activities under FORETS III.	EUR	164,494
7	Université de Kisangani	Democratic Republic of Congo	2025	The objective of the agreement is for the Partner to undertake activities under the FCDO project.	USD	56,939

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
8	Commission des Forêts d’Afrique Centrale	Cameroon	2025	CIFOR’s four-year programme “Central African Forest Observatory – Centre of Excellence (OFAC-CE)”, from 2024 until 2028, funded by EC, aims to address challenges for sustainable management of forest ecosystems of Central Africa and the well-being of the people who depend on them and of all humanity, through decision-making based on credible and regularly updated information. Therefore, OFAC-CE will support OFAC to fully exercises the role of Centre of Excellence within COMIFAC, through the provision of credible information generated and updated on forest ecosystems in Central Africa for their sustainable management and in response to user requests. The project will then support OFAC in its efforts to strengthen national capacities to: - collects, harmonizes and synthesizes information on the region’s biodiversity and ecosystems at local, national and regional levels, and makes it accessible to beneficiaries through an information system, - produces science and policy analysis to support decision-making, - facilitates more informed decision-making through better human capacity, a good institutional framework and a better network of information holders,	EUR	440,000
9	Centro de Tecnologias Alternativas da Zona da Mata	Brazil	2025	Consultancy partnership for CTA to organize a series of workshops and develop a communication products related to the Metrics Project (IFAD-1880).	EUR	18,501
10	Globe Consulting sarl	Democratic Republic of Congo	2025	The objective of the agreement is for the Partner to undertake activities described in Annex 1 – Work Plan as part of the implementation of CIFOR’s activities in the YEL, in accordance with this agreement and the annexes mentioned in Article 6 below.	EUR	598,579
11	Efecsa	United Kingdom	2025	To assess the relevance and effectiveness of FACT’s focus and to explore potential future directions for the initiative beyond its original commitment period. The findings and recommendations will determine whether FACT should continue after 2026, including funding and hosting considerations.	USD	83,700
12	Sahel ECO Evergreen	Mali	2025	The Overall Objective (Impact) of this Action is to strengthen the resilience (adaptive capacity, land health, diverse production, and livelihoods) of communities across the Sahel and Horn of Africa in the face of climate change, land degradation, and food/nutritional insecurity through greening.	EUR	840,691

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
13	Catholic Relief Services	USA	2025	The objective of the agreement is for the Partner to undertake activities described in Annex 1 – Work Plan as part implementation of the project titled “Regreening Africa – Phase II’ in accordance with this agreement and the annexes mentioned in Article 6 below.	EUR	1,845,680
14	Solutions for Wildlife	Democratic Republic of Congo	2025	The Aim of the SWM Biodiversity component is to design and test cost-effective, scientifically robust, replicable, and auditable methods and metrics that can be used by VBC projects to measure biodiversity change at a site level.	USD	102,904
15	Resources and Synergies Development	Latvia	2025	The objective of the agreement is for the Partner to undertake activities described in Annex 1 – Work Plan as part of the implementation of the project FCDO-YEL, in the Democratic Republic of Congo in accordance with this agreement.	USD	765,474
16	Globe Consulting sarl	Democratic Republic of Congo	2025	For the Partner to undertake activities described in Annex 1 – Work Plan as part of the implementation of the project FCDO-YEL, in the Democratic Republic of Congo in accordance with this agreement and the annexes mentioned in Article 6 below.	USD	312,119
17	CARE Nederland	Netherlands	2025	The Overall Objective (Impact) of this Action is to strengthen the resilience (adaptive capacity, land health, diverse production, and livelihoods) of communities across the Sahel and Horn of Africa in the face of climate change, land degradation, and food/nutritional insecurity through regreening.	EUR	1,370,114
18	Sociobio Serviços Especializados LTDA	Brazil	2025	The partner will build on project guidance and methods, including participatory visioning workshops, to design a strategy specific to Para to foster the conditions for high social integrity carbon. This includes: to identify gaps and challenges for JREDD, from the point of view of both the state government and IP&LC actors; to co-design solutions, such as an action plan for capacity development; and to implement the plan. The findings from the High integrity carbon Tracker project may be used as a baseline or talking points for these workshops. The partner will also work with IP&LC organizations to strategically support their objectives in relation to JREDD.	USD	24,150
19	Map of Life Solutions	USA	2025	Provision and Implementation of services as described in Annex 1	USD	218,100

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
20	Rainbow Environment Consult	Cameroon	2025	Consultancy contract for implementation of services for Socio-economic study of peatlands in the Republic of Congo (PUDT Project).	XAF	72,000,000
21	K&S Collective	South Africa	2025	Targeted support to the Flagship Initiative: Regreening Africa, specifically to scale knowledge and learnings from the flagship to youth, policy and practitioners, as well as the global arena.	USD	58,875
22	The Training Resource Group Inc (TRG)	USA	2025	The Women Leading in Times of Change course is an interactive and impactful program for women in senior leadership roles across national, regional, and global organizations. It addresses core leadership competencies, including strategic influencing, leading for inclusivity, leadership styles and effective communication. Participants will develop critical skills and strategies to enhance their leadership capacity, strengthen teamwork, manage conflict effectively, and build professional alliances. The course, facilitated by TRG Inc, also focuses on leveraging diversity for research and business success while fostering a strong online learning community and a rich network of female leaders. In collaboration with AWARD, Training Resources Group (TRG) designed and delivered a highly successful pilot of the Virtual Women’s Leading in Times of Change in July 2020 during the COVID-19 period. Building on this success, AWARD and TRG have since prepared and facilitated several leadership courses. AWARD seeks to contract TRG for the preparation and facilitation of the Women Leading in Times of Change, a virtual course for senior women leaders from CGIAR centers and development partners, a key component of AWARD’s 2025 business model courses.	USD	18,000
23	AVSF (Agronomes et Vétérinaires sans Frontières)	France	2025	The objective of the agreement is for the Partner to undertake activities described in Annex 1 – Work Plan as part implementation of the project titled “Regreening Africa – Phase II’ in accordance with this agreement and the annexes mentioned in Article 6 below.	EUR	881,054
24	Map of Life Solutions	USA	2025	Map of Life will provide technical and analytical support to the project and site teams, providing expertise in biodiversity monitoring methods, analyzing the biodiversity data collected by the sites, and collaborating with CIFOR-ICRAF to test and evaluate best practices for monitoring of biodiversity in the context of VBCs	USD	310,197

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
25	MERAKISOL S.R.L.	Belgium	2025	To support ICRAF in events and knowledge management, fundraising, stakeholder engagement, and policy advocacy.	USD	60,000
26	University of British Columbia	Canada	2025	<ul style="list-style-type: none"> • Actively engage with Care Canada in close collaboration with CIFOR to carry research, increase project visibility and explore funding future opportunities and fundings in Canada. • Assist our CIFOR consortium lead on Canada side – including taking lead in conducting research and sharing Canadian experiences and networks to Vietnamese partners as planned • Work closely with CIFOR, CARE Canada, CARE Vietnam and Vietnamese partners to develop and submit to GAC project financial and technical reports, M&E reports and other reports required by GAC 	CAD	525,549
27	K&S Collective	South Africa	2025	To implement services targeted for UK-PACT, Stelarr, CSR, and K4GGWA projects.	USD	82,170
28	International Fertilizer Development Centre (IFDC)	Ghana	2025	For the partner to undertake activities described in Annex 1—Work Plan as part implementation of the project titled Regional Soil Fertility Mapping Project in accordance with this agreement and the annexes	USD	56,333
29	International Institute of Tropical Agriculture	Nigeria	2025	To provide technical services and build capacity of WFP’s project stakeholders on the Soil Health aspects of the Regenerative Agriculture and Climate Smart Public (CSPW) as per the approved proposal.	USD	90,000
30	SETYM International	Canada	2025	This is a continuation of the work that already accomplished but also focus on fund raising to help build up bankable projects.	EUR	19,900
31	Association de Coopération et Solidarité en RD Congo contact	Democratic Republic of Congo	2025	The aim of the study is to not only evaluate the weight of the informal timber sector in the domestic production of primary wood products in the DRC but also to highlight the economic role it plays in the forest sector. Thus, the study will: i) Describe the value chain of the primary wood products in the DRC to supply the domestic economy based on the major timber markets in Kinshasa and Kisangani ii) Evaluate the current production of roundwood, industrial roundwood and sawn wood of the informal sector in order to derive the domestic consumption of primary wood products in the DRC; ii) Assess the forest degradation generated by the informal sector; iii) Make recommendations to increase the share of the formal sector by analyzing the current constraints and bottlenecks it currently faces.	USD	37,546

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
32	Institut National Pour L'Etude et Recherches Agronomiques	Democratic Republic of Congo	2025	This agreement is signed for the operations which support the implementation of CIFOR's activities in the Yangambi Engagement Landscape (YEL), from 1st March 2025 - 28th February 2026.	USD	370,848
33	Rio Impact	Luxembourg	2025	To provide advisory services to support several key initiatives and strategic processes aimed at enhancing the effectiveness and impact of sustainable land use finance.	EUR	38,750
34	Groupe de Travail Climat Red Renove	Democratic Republic of Congo	2025	The objective of the Agreement is for the Partner to undertake the activities described in Annex 1 - Work Plan in the implementation of the mentioned project in accordance with this Agreement and the Annexes referred to in Article 6 below.	USD	1,934,619
35	Sociedad Peruana de Derecho Ambiental - SPDA	Peru	2025	The project "EU Regulatory Compliance with Landscape Impact: Achieving climate resilience and nature conservation through EU compliant, sustainable agricultural value chains and landscape measures in South America" advocates for innovative tools verifying both EU compliance and sustainability norms in human rights, labor, and regenerative practices in Argentina, Colombia, Paraguay and Peru. In Peru, the project will focus on coffee and cacao in the region of San Martin. It will integrate value chain management, landscape approach, and enabling conditions, it mitigates landscape degradation, enhances ecosystem restoration, and fosters social justice. This initiative minimizes deforestation-associated trade leakage, fostering sustainable, long-term Europe-South America relations. The preparation phase has been designed to foster a collaborative and joint construction of the project proposal, aiming to make the best use of partners' experience and available resources, targeting effectiveness and efficiency, which has resulted in the identification of synergies that may exist between the work-packages proposed for the project. The main objective of the preparation phase is to develop a technically feasible project proposal to enable supply chain actors of soy, cattle, palm oil, coffee, and cacao to comply with the EUDR and to implement landscape conservation and restoration investments and supportive policies.	EUR	20,000
36	Environmental Protection and Rural Land and Administration Bureau Somalia Region, Ethiopia	Ethiopia	2025	Climate Adapted Portfolios of Tree Diversity (CAPTD) for landscape restoration are inclusively and sustainably upscaled in five Sub-Saharan countries (including Ethiopia) and beyond, by strengthening of tree seed supply and delivery systems for native tree species (NTS) that contribute to achieving national climate change, biodiversity conservation and land restoration targets	EUR	111,825

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
37	Hutan Kita Institute	Indonesia	2025	To implement activities at the sub-landscape and village levels that potentials to increase the adoption of climate-smart agricultural technologies, the integration of value chains and food security technology practices.	IDR	3,742,371,556
38	Rede Cerrado	Brazil	2025	Support the project activities in providing, gathering and compiling data and carrying out activities with local communities and strategic partners in the territories that encompass the Cerrado biome.	USD	30,500
39	Rio Impact	Luxembourg	2025	To strengthen sustainable land use finance frameworks at national, regional, and global levels.	EUR	71,250
40	Institut National Pour L'Etude et Recherches Agronomiques	Democratic Republic of Congo	2025	This agreement is signed for the operations which support the implementation of CIFOR's activities in the Yangambi Engagement Landscape (YEL), from 1st March 2025 - 28th February 2026.	USD	111,083
41	World Vision International	USA	2025	The Overall Objective (Impact) of this Action is to strengthen the resilience (adaptive capacity, land health, diverse production, and livelihoods) of communities across the Sahel and Horn of Africa in the face of climate change, land degradation, and food/nutritional insecurity through greening	EUR	3,058,743
42	World Agroforestry	Kenya	2025	The purpose of this Agreement is to guide the implementation of the CAP4BIO Project during its IKI Preparation Phase. Objectives: 1. Support the consolidation of common methodologies and approaches across partner institutions. 2. Contribute to the generation, systematization and analysis of baseline information relevant to biodiversity conservation and sustainable land-use planning in the three target countries within the Amazon basin. 3. Provide technical and strategic contributions to the development of the complete CAP4BIO Project Proposal, including inputs to the intervention logic, detailed workplan, budget, results framework, and related annexes, in alignment with IKI requirements and templates. 4. Participate in the definition of project governance and delivery mechanisms, and engaging with relevant political stakeholders to ensure alignment and support. 5. Contribute to the development of the environmental and social safeguards framework, undertake the gender analysis and contribute to the project's Gender Action Plan (P-GAP), based on gender analysis and risk assessments, in accordance with IKI's Environmental and Social Safeguards Policy.	EUR	95,496

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
43	OroVerde - The Tropical Forest Foundation	Germany	2025	The purpose of this Agreement is to guide the implementation of the CAP4BIO Project during its IKI Preparation Phase. objectives: 1. Support the consolidation of common methodologies and approaches across partner institutions. 2. Contribute to the generation, systematization and analysis of baseline information relevant to biodiversity conservation and sustainable land-use planning in the three target countries within the Amazon basin. 3. Provide technical and strategic contributions to the development of the complete CAP4BIO Project Proposal, including inputs to the intervention logic, detailed workplan, budget, results framework, and related annexes, in alignment with IKI requirements and templates. 4. Participate in the definition of project governance and delivery mechanisms, and engaging with relevant political stakeholders to ensure alignment and support. 5. Contribute to the development of the environmental and social safeguards framework, undertake the gender analysis and contribute to the project's Gender Action Plan (P-GAP), based on gender analysis and risk assessments, in accordance with IKI's Environmental and Social Safeguards Policy.	EUR	67,708
44	Resources and Synergies Development	Latvia	2025	The specific objectives relate to the conservation and enhancement of biodiversity while contributing to the sustainable development of local livelihoods. The activities that are defined in the Yangambi Landscape, in the Province of Tshopo concern not only the support to local communities through awareness-raising, vulgarization and supervision actions but also the strengthening of national human resources, in particular through formal university training of the LMD type.	EUR	2,603,480
45	Bangor University	Wales - United Kingdom	2025	To assess the state of Agroforestry knowledge in CIFOR-ICRAF and its integration potential including KfW programming. Furthermore, ensuring the continuity of our collaboration with Bangor university	GBP	13,500
46	Statistics for Sustainable Development	United Kingdom	2025	The objective of the agreement is for the Partner to undertake activities described in Annex 1 – Work Plan as part implementation of the project titled Transformative Land Investment in accordance with this Agreement and the annexes mentioned in Article 6 below.	USD	63,200
47	Centre de Coopération Internationale en Recherche Agronomique pour le Développement	France	2025	RESSAC project through its activity A.3.1 in collaboration with CIRAD plans to build the capacity of African partners from local universities and national research centres involved in forestry and environment domains. This workshop is for doctorates and post doctorates from Central Africa, in LIBREVILLE and Brazzaville.	EUR	34,734

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
48	Instituto Sociedade População e Natureza-ISPAN	Brazil	2025	The purpose of this Agreement is to guide the implementation of the CAP4BIO Project during its IKI Preparation Phase. Objectives: 1. Support the consolidation of common methodologies and approaches across partner institutions. 2. Contribute to the generation, systematization and analysis of baseline information relevant to biodiversity conservation and sustainable land-use planning in Brazil, within the Amazon basin. 3. Provide technical and strategic contributions to the development of the complete CAP4BIO Project Proposal, including inputs to the intervention logic, detailed workplan, budget, results framework, and related annexes, in alignment with IKI requirements and templates. 4. Participate in the definition of project governance and delivery mechanisms, and engaging with relevant political stakeholders to ensure alignment and support. 5. Contribute to the development of the environmental and social safeguards framework, undertake the gender analysis and contribute to the project's Gender Action Plan (P-GAP), based on gender analysis and contribute to the project's Gender Action Plan (P-GAP), based on gender analysis and risk assessments, in accordance with IKI's Environmental and Social Safeguards Policy.	EUR	122,236
49	Sociedad Peruana de Derecho Ambiental - SPDA	Peru	2025	The purpose of this Agreement is to guide the implementation of the CAP4BIO Project during its IKI Preparation Phase. Objectives: 1. Support the consolidation of common methodologies and approaches across partner institutions. 2. Contribute to the generation, systematization and analysis of baseline information relevant to biodiversity conservation and sustainable land-use planning in Peru, within the Amazon basin. 3. Provide technical and strategic contributions to the development of the complete CAP4BIO Project Proposal, including inputs to the intervention logic, detailed workplan, budget, results framework, and related annexes, in alignment with IKI requirements and templates. 4. Participate in the definition of project governance and delivery mechanisms and engaging with relevant political stakeholders to ensure alignment and support. 5. Contribute to the development of the environmental and social safeguards framework, undertake the gender analysis and contribute to the project's Gender Page 8 of 19 Action Plan (P-GAP), based on gender analysis and risk assessments, in accordance with IKI's Environmental and Social Safeguards Policy.	EUR	140,130
50	Pacos Trust	Malaysia	2025	Collaborative Research on Mofa-funded research project	USD	15,000

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
51	Botanic Gardens Conservation International Africa Limited	Kenya	2025	BGCI Africa will distribute funding to national partners in Kenya and Uganda, via grant agreements to carry out activities that contribute to Work Packages (WP) 1, WP2, WP3, WP4 and WP6.	EUR	921,989
52	Ecole Technique D'Agriculture De Garoua (ETAG)	Cameroon	2025	ETAG collaborates with ICRAF to offer training services in the implementation of INNOVACC project	XAF	17,227,000
53	Centre de Coopération Internationale en Recherche Agronomique pour le Développement	France	2025	to design and implement facilitation as a tool for facilitation, coordination and co-construction of meetings.	EUR	14,127
54	Zabbaan	Mali	2025	The objective of the agreement is for the Partner to undertake activities described in Annex 1 – Work Plan as part implementation of the project titled 'K4GGWA' in accordance with this agreement and the annexes mentioned in Article 6 of the LOA.	EUR	108,689
55	Conseils et Appui pour l'Education à la Base (CAEB)	Mali	2025	Collaboration between CIFOR and CAEB in the Great Green Wall in Mali: Sustainable Management of Forest and Land Resources project/"Grande Muraille Verte au Mali : Gestion des Ressources Naturelles"	EUR	1,444,500
56	Moringa School	Kenya	2025	Moringa School will develop a curriculum and deliver in person training for the upcoming Women in Data Science Fellowship. The program focuses on leveraging data science techniques to drive impact in agrifood systems and climate resilience. Participants will develop expertise in Python for machine learning, data wrangling, visualization, statistical analysis, and AI applications with a strong emphasis on real world problem solving.	USD	21,350
57	Consultoria em Quest Sustentabilidade do Meio Ambiente	Brazil	2025	The objective of the partnership is for the provision of Conservation Finance Specialist services to support the review and update of the Cerrado Ecosystem Profile. The professional will be responsible for providing technical support to the revision of the analysis of past conservation investments in the biome, identifying funding gaps and opportunities, and formulating recommendations on investment mechanisms. Their work will directly contribute to the development of Chapters 11 to 15, which will focus on financial analysis, investment gaps, funding opportunities, and recommended investment mechanisms of the profile, with a focus on building the CEPF investment strategy for the 2025–2030 period, ensuring alignment with the Long-Term Vision for the Cerrado.	USD	19,358

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
58	Emerge Centre for Innovations-Africa	Kenya	2025	Consultancy contract for Emerge Centre for Innovations-Africa (ECI-Africa) to support the design and execution of the Regional Multi-Actor Research Network (RMRN) Projects Training on Agroecology on September 8th–9th (virtual) and 12th–13th (in person in Nairobi), 2025.	USD	16,005
59	Instituto Humboldt de Biodiversidade da Colombia	Columbia	2025	A consortium will address this problem in Peru, Brazil and Colombia, three megadiverse, multi-ethnic and multicultural, ranking at the top of world biodiversity inventories, encompassing over 80% of the Amazon basin and hosting important other ecosystems from coastal zones to mountains, but teetering on a pivotal threshold.	EUR	151,703
60	Resources and Synergies Development	Latvia	2025	The objectives of this agreement are: 1) To determine the Total Economic Value (TEV) of the Managalas Plateau landscape in Papua New Guinea, 2) To develop tools for four specific value chains, including two agricultural products and at least one landscape service, and 3) is to support the development of the Oro Bay Green Economic Zone.	EUR	130,668
61	Kenya Forestry Research Institute	Kenya	2025	To provide certified, site suitable and high-quality tree seed in sufficient quantities to meet national demand (Draft SPVR FTS (2021)). As the LoA is specific to the establishment of future quality tree seed orchards, KEFRI has been agreed upon as the best suited national partner, given their mandate.	USD	16,012
62	Collège Privé Technique et Professionnel Agricole de Maroua (COPTAM)	Cameroon	2025	COPTAM collaborates with ICRAF to offer training services in the implementation of INNOVACC project	XAF	20,744,625
63	K&S Collective	South Africa	2025	The purpose of this project is to boost access to high-quality, diverse, and climate-resilient tree-planting material and to ensure that quality tree seeds and seedlings are planted in the right places, for the right purposes. The project designs and improves seed and seedling supply systems to support the restoration of degraded landscapes and to enhance biodiversity and food security.	USD	82,595
64	University of Moratuwa	Sri Lanka	2025	To design and implement a community-driven, nature-based intervention framework and guidelines for restoring ecological infrastructure in the Knuckles region	LKR	9,800,000
65	James Cook University	Australia	2025	To engaged two Masters by research students and one Postdoctoral researcher at JCU to undertake research and scientific-dissemination activities associated with the study	AUD	958,700

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
66	International Institute of Tropical Agriculture	Nigeria	2025	The overall objective of the Program will be achieved through the following three specific objectives (SO): - SO1. Sustainable and legal use of wild animal populations through participatory management of hunting, fishing and, more broadly, wildlife, involving rural stakeholders and ensuring their livelihoods in compliance with legal frameworks consolidated by customary law and practices, without compromising biodiversity conservation. - SO2. Reduced dependence of human settlements (urban or otherwise) on wild meat from unsustainable sources, in favour of healthy and sustainable supply chains. - SO3. Strengthened capacity to prevent zoonotic risks of wild origin at the human-domestic animal-wildlife interface and in ecosystems (based on the One Health approach).	USD	37,180
67	Varda Foundation ETS	Italy	2025	The project expected effect(s) on society impact is enhanced soil health knowledge and practice through improved access and use of soil health information in Ghana, Kenya, Malawi and Tanzania. The expected effects of the target group of the project (Outcomes) are: • Enhanced access and to use of reliable soil information through an interoperable soil data infrastructure. • Co-design and scaling of successful soil health use cases	NOK	25,733,652
68	Centre For Ecosystem Restoration - Kenya	Kenya	2025	Kenya has an ambitious target to plant 15 billion trees by 2032 under the National Action Plans (i.e., NDC, LDN, NBSAP) and multilateral agreements like the AFR100 and Bonn Challenge. The Right Tree in the Right Place (RTRP-Seed) project aims to supply high-quality tree planting material of native tree species for landscape restoration in Kenya and sub-Saharan Africa. This project is underpinned by the synergy in policies promoting environmental conservation and the availability of high-quality seed from well-characterized sources that ensure the survival, adaptability, and productivity of tree plantings across different agro-ecological zones The country is highly diverse, ecologically, from afro-montane to dryland savannas, with over 6700 indigenous species. However, inadequate policies and documentation of natural seed sources and limited access to genetically diverse, site-appropriate germplasm hinder successful reforestation and agroforestry initiatives. This project component (WP1&2) seeks to bridge this gap through policy review, comprehensive seed source description, and targeted seed collection, focusing on priority species for conservation, ecological restoration, livelihood, and climate resilience.	EUR	27,274

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
69	Cyclage Soluções Ambientais Ltda	Brazil	2025	Consultancy for the implementation of a work plan approved by the World Bank to identify techniques, technologies and methodologies for monitoring native vegetation, especially in the Amazon Biome.	USD	17,100
70	South Pole	United Kingdom	2025	The objective of the Agreement is for the Partner to undertake activities described in Annex 1 – Work Plan (“Services”) as part implementation of the project titled ‘Provision of services for the Carbon Payment for Environmental Services programme in the Grand Mbam Landscape in Cameroon’ in accordance with this Agreement and the annexes mentioned in Article 6	USD	56,070
71	Kenya Forestry Research Institute	Kenya	2025	The right tree in the right place for the right purpose (RTRP) project aims to supply high-quality tree planting material of native tree species (NTS) to support landscape restoration in Sub-Saharan Africa. Implemented under the German International Climate Initiative (IKI), the project addresses the challenges African nations face in achieving restoration targets under frameworks such as the Bonn Challenge and the AFR100 initiative. Focusing on Kenya, Burkina Faso, Ethiopia, Rwanda, and Uganda, the project seeks to improve tree seed and seedling supply systems, align policies to support sustainable restoration, and create innovative business models that drive restoration efforts. By leveraging partnerships with leading institutions, including KEFRI, the project strives to establish resilient natural resource management systems. KEFRI proposes to actively engage in this initiative by contributing to four critical Work Packages (WP 1, WP 3, WP 4) in partnership with CIFOR-ICRAF.	EUR	81,155
72	True-North Development Solutions Limited	Kenya	2025	Assess achievement against the intended objectives of enhancing women’s leadership and strengthening institutional gender responsiveness in agrifood policy processes.	EUR	49,479
73	Instituto Boliviano De Investigacion Forestal - IBF	Bolivia	2025	Carry out community consultations in Bolivia to improve integrated wildfire management and control in South America	USD	49,916
74	Statistics for Sustainable Development	United Kingdom	2025	Gender information needs for African Agrifood Systems and Climate Resilience (Module 1), Problem / Challenge identification and research questions (Module 2), Research methods for data collection and analysis (Module 3 & 4) and Interpretation and translation of results to influence decision-making (Module 5).	USD	36,075

#	Partner Institution	Partner Country	Contract Year	Purpose of agreement	Currency	Value
75	National Forestry Resources Research Institute - Uganda	Uganda	2025	This proposal deals with the first step towards this to collect jackfruit germplasm, prepare nursery to grow this germplasm and plant the collected germplasm till 31st December 2025.	USD	26,004
76	Sociedad Peruana de Derecho Ambiental - SPDA	Peru	2025	Carry out community consultations in Peru to improve integrated wildfire management and control in South America	USD	50,000
77	Rights and Resources	USA	2025	The project takes a transformative intersectional and co-learning approach to IP/ADP-led conservation. As such, activities with partners are designed to support our main target group, IP/ADP men, women and youth, to identify, design, and implement self-determined strategies to address the climate and biodiversity crises that are grounded in their worldviews, knowledge systems, and wellbeing.	EUR	36,134
78	Sahel ECO Evergreen	Mali	2025	Component 3 of the Great Green Wall Action Program will be implemented by CIFOR-ICRAF with its implementing partners on the ground, including the NGO Sahel Eco.	EUR	3,696,930
79	Leibniz Centre for Agricultural Landscape Research	Germany	2025	The project takes a transformative intersectional and co-learning approach to IP/ADP-led conservation. As such, activities with partners are designed to support our main target group, IP/ADP men, women and youth, to identify, design, and implement self-determined strategies to address the climate and biodiversity crises that are grounded in their worldviews, knowledge systems, and wellbeing.	EUR	47,840
80	Sociedad Peruana de Derecho Ambiental - SPDA	Peru	2025	The Transformar para Conservar project supports transformative biodiversity conservation led by Indigenous Peoples (IP) and Afro-descendent Peoples (ADP), with a particular focus on women-led processes and gender justice. It aims to strengthen territorial governance, conservation practices, and rights-based approaches across Peru and Colombia. The project is structured around participatory co-design, flexible funding, and the long-term sustainability of locally grounded actions.	EUR	62,631
81	Asociación de Mujeres Afrodescendientes del Norte del Cauca	Columbia	2025	The project takes a transformative intersectional and co-learning approach to IP/ADP-led conservation. As such, activities with partners are designed to support our main target group, IP/ADP men, women and youth, to identify, design, and implement self-determined strategies to address the climate and biodiversity crises that are grounded in their worldviews, knowledge systems, and wellbeing.	EUR	51,620

82	World Agroforestry	Kenya	2025	CIFOR and ICRAF are a joint organizations and will implement the project together. ICRAF is a partner in the project consortium, as required by the funder.	EUR	22,325
83	Centre de Coopération Internationale en Recherche Agronomique pour le Développement	France	2025	For the Partner to undertake activities described in Annex 1 – Work Plan as part implementation of the project titled “Learnings from exemplary transdisciplinary initiatives within the Agroecology TPP networks to integrate into food system governance / CIRAD sub-agreement”	USD	51,000
84	ALS Water and Hydrographics Pty Ltd.	Australia	2025	The selected consultant will provide advise for the procurement of equipment in line with the stated goals of the hydrological network and installation of the equipment	AUD	115,281
85	Zamany Accessory	Nigeria	2025	to open a new basketry and leather goods production workshop, formalize women's groups for the weaving of raw materials, expand activities in Côte d'Ivoire and the possible opening of Zamany workshops and/or stores in neighboring countries.	EUR	25,000
86	One Acre Fund	Rwanda	2025	Under the RTRP Seed Project, One Acre Fund will support large-scale delivery of native tree seedlings and agroforestry interventions through its established smallholder farmer networks. The partnership contributes to Work Packages 1–7 by supporting farmer engagement, training, logistics, and monitoring of restoration and tree planting activities.	EUR	165,724
87	Sokoine University of Agriculture	Tanzania	2025	For the Partner to undertake activities described in Annex 1 – Work Plan as part implementation of the project titled “Learnings from exemplary transdisciplinary initiatives within the Agroecology TPP networks to integrate into food system governance / SUA sub-agreement	USD	51,000
88	Arbeitsgemeinschaft Tropische und Subtropische Agrarforschung (ATSAF) e.V.	Germany	2025	ATSAF leads all activities related to the Tropentag conference – i.e. the PhD cohort events and workshops and specific add-on events aligned with the GC Hub objectives. They coordinate these with the Tropentag organisers to align with related components such as the CGIAR++ related activities of the conference (GIZ/BMZ session, CGIAR++ feature center, friends of the CGIAR Meeting, own CGIAR++ session if applicable). ATSAF - jointly with CIFOR-ICRAF and in coordination with the Capacity Sharing Accelerator Innovation Laboratory - develops content for teaching modules to accompany the scholarship programs, and explores opportunities for designing additional teaching or outreach materials for other audiences.	EUR	334,044

* Additional budget to an existing contract - Partnerships that started previous years but had a Costed extension signed between Jan 2025 & Mar 2026
